

# 2010 Cohort Graduation and Dropout Rate Report

## Contents

Background and Highlights

Section 1: State Cohort Graduation and Dropout Rates

Section 2: 2010 State Cohort Graduation Rate Detail by District and School

## Background

- The cohort graduation and dropout rates track the classes (cohorts) of 2007, 2008, 2009 and 2010. Cohorts are tracked beginning with the tenth grade.
- The Utah State Office of Education (USOE) uses a Statewide Student Identifier (SSID) to accurately track each student.
- The class of 2007 is the first high school cohort to participate in this longitudinal data system.
- Data collection and calculation methods have remained constant for these four years, making these data comparable.

## State Cohort Graduation Rate Highlights

- Utah's statewide cohort graduation rate has remained constant at 88% for 2007, 2008 and 2009. In 2010, the rate rose to 90%.
- Among ethnic groups, Hispanic/Latino students had the lowest graduation rate (74%) and White students had the highest graduation rate (92%).
- The cohort dropout rate complements the cohort graduation rate (10% dropout, 90% graduation rate).
- The percentage of graduates has steadily increased over the past four years for some subgroups. For example, the percentage of American Indian graduates increased from 74% to 79%, the percentage of students with disabilities graduates increased from 77% to 85%, and the percentage of economically disadvantaged graduates increased from 77% to 81%.

## 2010 Graduation and Dropout Rate Report

### Section 1: State Cohort Graduation Rates

The Utah adjusted state cohort graduation rate is the percentage of students in a high school graduation cohort who received a diploma from a Utah public school prior to September 30 of their graduation year.

The USOE applied a formula for the cohort graduation rate required by the No Child Left Behind Act (NCLB) and specifically approved for use in Utah by the United States Education Department (USED). The formula is simply the number of graduates in the cohort divided by the number of graduates plus dropouts in the cohort, with students who transferred out of the public education system excluded from the computation.

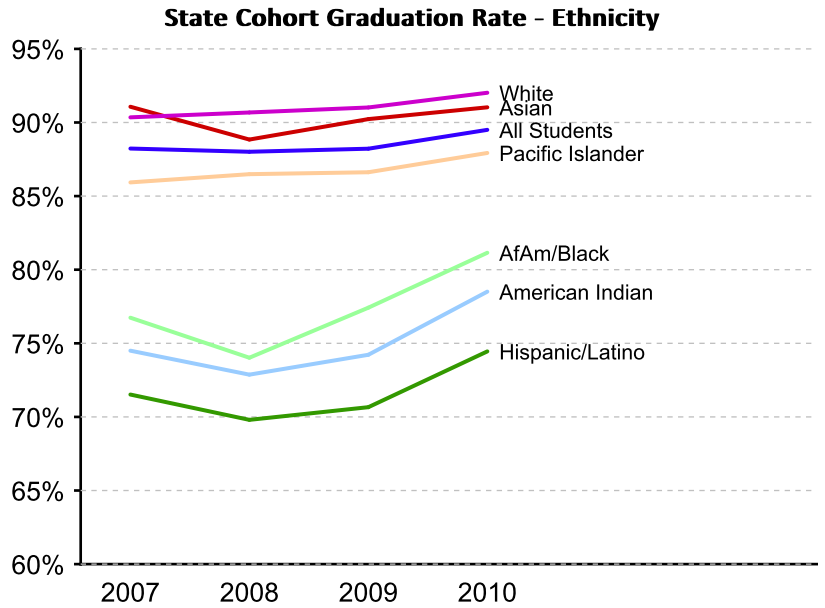

Cohort graduation rates and dropout rates always total 100%. For example, if the graduation rate is 88%, the dropout rate is 12%. More information concerning graduation rates and dropout rates is in the document "Utah Graduation and Dropout Rates" at [http://www.schools.utah.gov/assessment/documents/Acct\\_Grad\\_Dropout\\_Rates.pdf](http://www.schools.utah.gov/assessment/documents/Acct_Grad_Dropout_Rates.pdf).

2010 Graduation and Dropout Rate Report

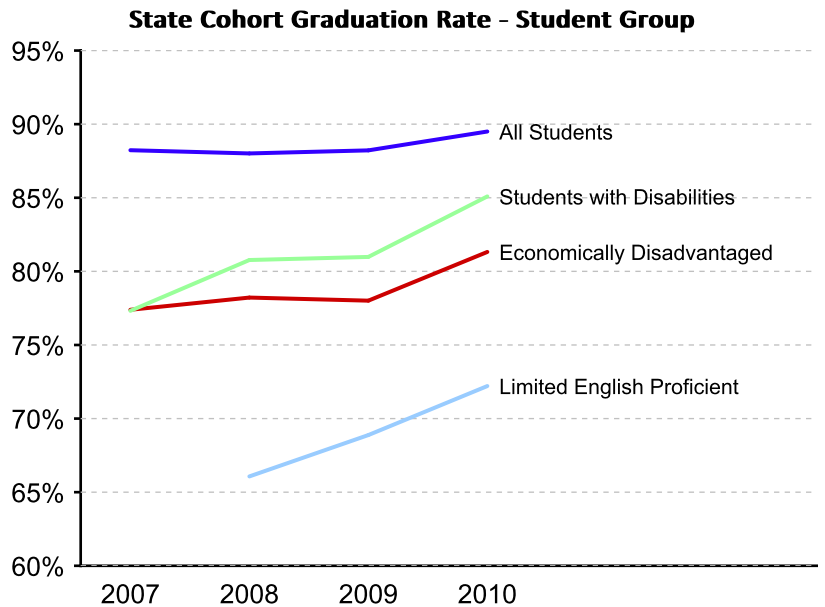

Section 1: Charts - State Cohort Graduation Rates by Subgroups

The state average graduation rate has remained stable at 88% for three years. In 2010, the rate rose slightly to 90%. While Hispanic/Latino, American Indian, and African American or Black students have the lowest graduation rates, their rates have improved since 2008.

Limited English Proficient (LEP) students, Economically Disadvantaged students, and Students with Disabilities historically underperform as compared to the state average. Graduation rates for these groups have slightly improved in recent years.

The criteria for determining which students qualified for the LEP group changed in 2008; therefore, LEP data for 2008 and 2009 are not comparable to data for 2007.

**2010 Graduation and Dropout Rate Report**
**Section 2: 2010 State Cohort Graduation Rate Detail by District and School**

2010 data disaggregated by subgroup for each school district and for each school is presented in this appendix. If the number of students in a student group is less than ten (n<10), the graduation rate is not reported to protect student privacy. All of the schools in the report are accredited Utah high schools.
