

## Home Schooled Students by District, FY 2004-2010

**Where do the home school counts come from?**

School districts were asked by the USOE to respond to the following question as part of the web survey component of their official year-end statistical report:

"How many students were issued certificates exempting them from public school attendance for home schooling in accordance with Utah Code 53A-11-102 for the school year just ended?"
